## Contributors

### PAUL DERRICK

Paul Derrick is a writer. He is Editor of the Christian Socialist, Secretary of the Robert Owen Association, and a member of the Executive Committee of the Industrial Common Ownership Movement. He has written much on co-operative matters and on industrial and economic problems. His book 'Lost Property' was published in 1947 and his Co-operative Party Pamphlet 'Socialism in the Seventies' in 1970.

### JOHN SHIPPEE

John Shippee, 29, Assistant Professor of Political Science at the California State University at Fullerton currently on leave. This year he is a visiting researcher at the International Peace Research Institute in Oslo. His main interests are future, peace and survival studies and, in the short term getting the United States out of Indo-China and the economic super-powers out of the Imperialism/international exploitation business.

### STEPHEN WILLETTS

Stephen Willetts is 23 and a Biochemistry graduate of Sussex University. Rather than specialise he then joined the Inter-Disciplinary Research team at Surrey University which is looking into the problems, especially the economic ones, of disposing of agricultural wastes.
