

Information for Families

Green and Away is an outdoor events venue: we provide beautiful and inspiring spaces for individuals and organisations that wish to hold events in the open air and under canvas. We have various structures on site including a children's area with some toys etc. We don't provide qualified staff to run a crèche where children can be left by their parents.

Some areas of the site do not respond well to children's play - e.g. our straw bales are a wonderful draw for children to play on, but are easily damaged so they become unusable; so we may restrict children from certain areas of the site at particular times. We ask for event organisers and parents to cooperate with this.

The Green & Away site is four miles from Worcester, in a field near a fast-flowing river. This situation, while making the site very beautiful, brings some hazards. There is a fence between the edge of the field and the river, but parents of adventurous children who like exploring, will need to supervise their children closely at all times.
